FIELD MUSEUM OF NATURAL HISTORY  
CHICAGO

February 16, 1917

My dear Dr. Farlow:-

You will pardon, I know, my delay in answering your letter of Jany. 4, when I tell you that this Museum has been closed for over a month on account of lack of coal.

I am sorry to state that the herbarium of this Museum has not a complete set of Blumer, Arizona plants. Of the numbers concerning which you inquire:

3472 (musci)  
3549 (Hepatic)  
3550 not in this herb.  
3551 *Grimmia apocarpa*(L.)Hedw.  
3555 (Musci)  
3556 *Hypnum* sp.

This is a sad showing for names! If you desire them for examination I will gladly have them forwarded to you.

Sincerely yours

Curatorm Department of Botany
